JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

HONDURAS.

Puerto Cortez Sanitary Conditions.

Acting Asst. Surg. Stowe reports May 15:

Sanitary conditions at this port are good. No quarantinable disease is present. The water supply is ample and as furnished by the city mains is of superior quality to that supplied during the past year. About 2,000 overground cisterns are in use. The only mosquitoes present in any numbers are the *Culex pungens*.

The drains from the sea front leading back at various points through the town to the swamps have recently been cleaned and opened up so that the marshes can be flooded with salt water.

San Pedro was inspected May 7 and found to be in good sanitary condition.

INDIA.

CALCUTTA—Cholera, Plague, and Smallpox.

Acting Asst. Surg. Allan reports April 27:

During the week ended April 22 there were reported at Calcutta 44 deaths from cholera, 115 from plague, and 3 from smallpox; in all Bengal, 4,517 cases of plague, with 3,917 deaths; in all India, 48,023 cases of plague, with 42,770 deaths.

ITALY.

NAPLES—Smallpox.

Passed Asst. Surg. King reports May 9:

During the week ended May 6 there were reported at the health office of the city of Naples 22 cases of smallpox, with 15 deaths.

MEXICO.

ENSENADA—Smallpox.

Information received under date of May 12 shows the occurrence of 18 cases of smallpox at Ensenada, with 7 cases present at date of report. Of these cases all but 2 were placed immediately in the pesthouse, which is situated 2 miles distant from the town. The cases not in the pesthouse were placed under guard and isolated.

Smallpox in the State of Tabasco.

According to information received from the Department of State May 26, the American consul at Frontera reports that smallpox has appeared at San Juan Bautista, the capital of Tabasco. There have been reported 40 cases with 10 deaths.

PORTUGUESE EAST AFRICA.

Plague at Nahoria.

The American consul at Zanzibar reported May 26 the presence of plague at Nahoria, Portuguese East Africa.

ZANZIBAR.

ZANZIBAR—Smallpox—Examination of Rats.

Consul Weddell reports April 3 and 11:

During the week ended March 31 there was reported 1 case of smallpox. From the date of the smallpox outbreak, June 8, 1910,

to April 9, 1911, a total number of 266 cases with 144 deaths was reported. The total number of vaccinations reported during the same period was 39,903.

During the two weeks ended April 7 there were examined for plague infection 1,889 rats. No plague-infected rats were found.
